## What is claimed is:

- 1. A motor shaft structure in a clothes dryer including a drying drum rotatably mounted in a body, a motor bracket fixed to a bottom of an inside of the body, a motor mounted on the motor bracket for generating a rotating power, and a fan coupled to the motor with a shaft, the motor shaft comprising chambered parts.
- 2. The motor shaft structure as claimed in claim 1, wherein the chamfered parts in the motor shaft have D-cut forms.
